

Making Your Model Parachute!

Five steps to making the Parachute:

First: Mark out chute on plastic shopping bag, with a sharpie marker, (Use guide, (Mirror guide to make full chute)).Cut along the marked outline to make plastic chute.

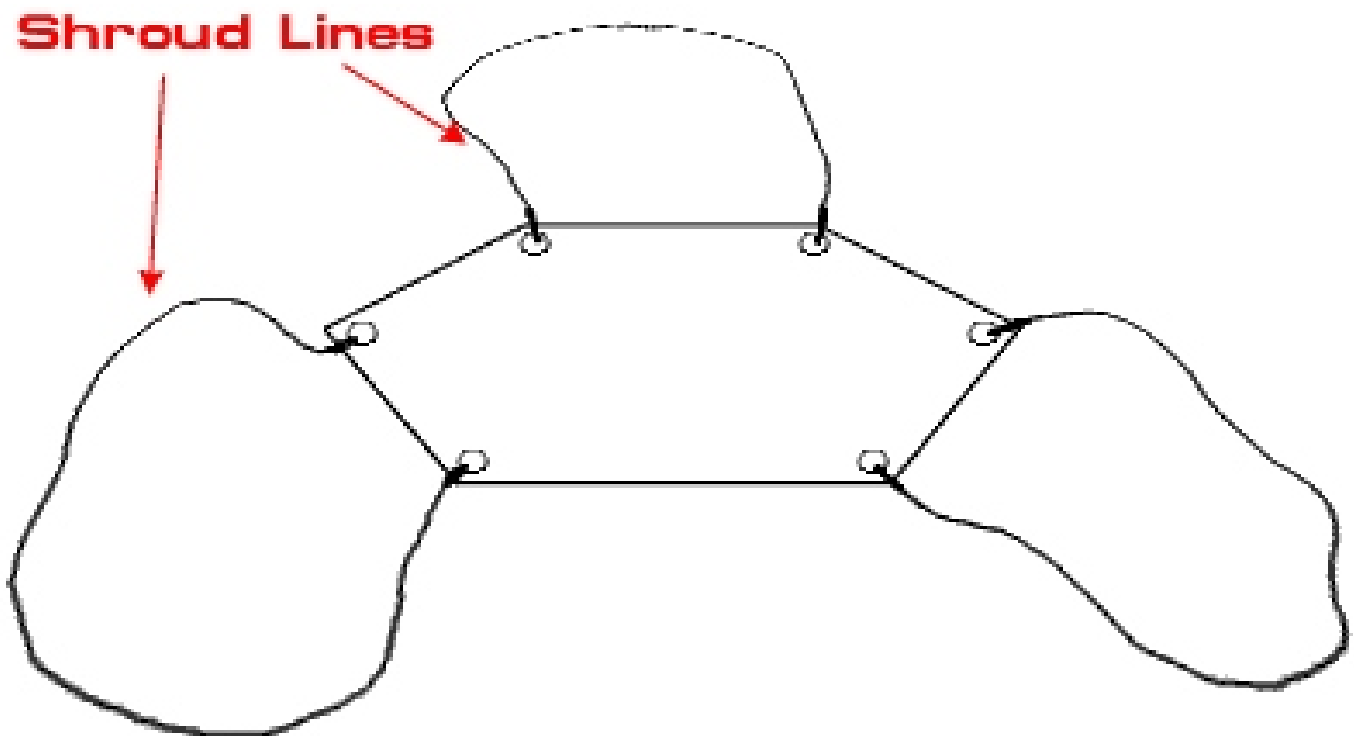

Second: Apply the vinyl tape to each corner of the chute.

Third: Using a sharp pencil, punch holes through the center of each of the tape locations.

Fourth: Cut the 72" of kite string into three equal shroud line strings.

Fifth: Tie each end of the shroud line to each corner of the parachute.

Sixth: Tie the parachute to the nose cone's eyelet.

Note:
Use this half
pattern
for marking &
cutting of plastic
shopping bag
for model
parachute
(Mirror to
make full
parachute
outline)!
